Where is HMIS Helpful and What are its Advance Feature

- ◆ Panel Audit
- ◆ Data Sharing Ward to Pharmacy
- ◆ Data Sharing Ward to Pathology
- ◆ Data Sharing Ward to Radiology

Hospital Management Information System (HMIS)

The screenshot shows a web browser window titled "Holy Family Hospital, Rawalpindi" with a menu bar containing "File", "Reports", "Graph", and "Search". The main content area features a blue header with the "Doctor Soft Technology" logo and a large image of a stethoscope and a doctor. Below the header is a "MENU" on the left with buttons for Administration, Medical Officer, House Officer, Theater, Profile, Staff, Labs Test, Aenesthesia, Pharmacy, User Control, and Store Inventory. A "NAVIGATOR" button is on the right. The central area displays the "HMIS Hospitality Solution" logo and text: "HMIS is state-of-the-art technology ERP based solution for hospitals Highly customizable to suit your hospital needs". Below this text are three small images: a surgical team, a patient on a gurney, and a doctor at a computer. To the right is a 3x3 grid of images: test tubes, pills, a doctor on a phone, and a doctor in a lab coat. The footer contains "Copyright 2005 Doctor Soft Technology, All Rights Reserved" and "Doctor Soft Technology."
